

## HALF INNER-TENT

To provide privacy inside the tent, we have developed a half inner-tent with integrated floor in Comfort grade. The inner-tent has two fresh air intakes and need not be detached when packing the tent. If you want to remove it, it is easily detached from its quick fastenings. For extra comfort inside the rest of the tent, it can be combined with a half floor or a half fleece floor.

### HALF INNER-TENT COMFORT

The walls are made of a carefully chosen standard-type material. Curved zip. Sewn-in floor in Comfort grade but without any zips.

### KEY FEATURES

- Creates privacy inside the Nordic tipi
- Offers even more reliable protection against insects
- Protects against condensation which is especially important for Nordic tipis made of lightweight material
- Provides a weather-protected place for wood, packing and wet shoes outside the inner-tent

HALF INNER-TENT	Comfort	
Size	<b>7</b>	<b>9</b>
Weight (kg)	1.9	2.6
Art. no.	11777	11999

## HALF FLOOR

If the Nordic tipi is used with a half inner-tent and you still want to have a floor on the rest of the living area, we also offer a half floor in Comfort grade. Without an inner-tent, two half floors can be joined together with Velcro to make a whole floor. To make a fire in the tent, you can fold away the floor by opening the zip in the middle. The zip also makes it possible to remove quarter of the floor to create an uncovered space for dirty shoes, firewood, etc. Our half floor can also be combined with a half fleece floor.

### HALF FLOOR COMFORT

Made of a carefully chosen standard-type material. The zip makes it possible to open up the floor to make a fire or to use a quarter floor.

### HALF FLEECE FLOOR COMFORT

Made of a carefully chosen standard-type material where one side is covered with soft and comfortable fleece. Our fleece floor is fully damp-resistant, like all our other floors.

HALF FLOOR	Comfort	
Size	<b>7</b>	<b>9</b>
Weight (kg)	0.7	0.8
Art. no.	12270	12290

HALF FLEECE FLOOR	Comfort	
Size	<b>7</b>	<b>9</b>
Weight (kg)	1.8	2.1
Art. no.	12170	12190

Half floor

Divided half floor

Half fleece floor

### KEY FEATURES

- Fitted with a zip cover which protects the zip from dirt
- Can be combined with a half inner-tent, a half floor or a half fleece floor

## RAIN HAT

The rain hat fits all sizes and models of tents except Olivin. It allows full ventilation on warm, rainy summer days while keeping rain out. It is placed over the tent top and attached to the storm cord fastenings.

### KEY FEATURES

- Allows full ventilation even when it rains
- Fitted easily over the top of the tent
- Retains its taut shape with the help of a collapsible metal ring

### RAIN HAT

Suitable for tent sizes	Comfort cp
Weight (g)	5-15
Art. no.	540
	11020

## RAIN ROOF OLIVIN

The roof provides rain protection over the entrance. It is attached to the accessory sleeve which is now a standard feature of all Olivin tents. For the older version with no sleeve, an accessory connector can be bought. You do not need to pack separate poles since the rain roof is put up using one or two of your hiking sticks (not included).

### KEY FEATURES

- Provides both shade and rain protection in front of the door
- Fitted quickly and easily
- Saves weight; put up with your hiking sticks

### RAIN ROOF OLIVIN 2

Suitable for tent size	Comfort light
Size (m²)	2
Packed size (cm)	1.6
Weight (g)	27x15
Weight without pegs (g)	350
Art. no.	290
	30103

## RUCKSACK FRAME

Our rucksack frame has been developed primarily for Zirkonflex but also fits Zirkon 15 and Safir 15. It is also perfect for any heavy loads, such as firewood.

The frame is made out of aluminium. It has an adjustable load-bearing system which distributes the weight. The padded hip belt gives good support and reduces strain together with comfortable, padded shoulder straps. Because the rucksack frame can be adjusted in so many ways, it can be adapted to any build of body. It has many clever features such as the quick-lock buckles, the top straps, the chest strap and the ventilating back mesh panel.

### KEY FEATURES

- Makes it easier to carry the larger Nordic tipis
- Makes it easy to attach additional items/pack bags
- Creates a ventilating air space between the back and the load
- Also useful for fetching firewood

### RUCKSACK FRAME
